Manufacturers of Chemical Specialties and Ceramics for Over 35 Years

DEALER APPLICATION

Great Products, Performance and Education Our Priority...

Thank you for your request. Founded over 35 years ago in Easton, PA, American Dental Supply, Inc. has consistently provided dental labs around the world with the finest specialty chemicals and ceramics. Many of our products are the best in their respective categories, unbeatable in performance and value.

*Our recent acquisition of Leach & Dillon Products has expanded our manufacturing and dramatically increased our lab product offerings. We hope you enjoy browsing through our newest catalog which features all of these great new products, like **Cerpress™ SL Pressable Porcelain**, **Enigma™ Premium Denture Teeth**, **Creare® Casting Rings** and **Creare® Rapid Fire Investment**, plus much more.*

We are now offering hands-on training and online seminars to further add value to our products and educate our customers on proper product application and usage. At American Dental Supply, Inc. our mission is providing you, our valued customers, with the most effective, economical and safest materials available. Guaranteed.

Partnership Advantages

Stocked Manufacturing Facility – American Dental Supply, Inc. operates a stocked manufacturing facility and ships internationally to customers all over the world.

Quick Delivery – ADS is set up to fill your orders and ship it fast. We offer shipment via land, sea and air. UPS Standard, Federal Express and competitive freight is available as needed.

Excellent Product Selection – We are dedicated to producing the finest chemical and ceramic products available. ADS also publishes and distributes a comprehensive and informative product catalog. We also provide online product shopping in which customers are able to make purchases after selecting the dealer of their choice.

Custom Chemical Specialties and Custom Solutions – “We Have Your Solution.” is our motto and at ADS research and development staff are available to create custom chemical solutions for your lab customers.

Product Sampling – Have a new product to introduce to your customers? ADS can repackage, or manufacture products for customer product sampling programs or introductions.

Technical Support – ADS provides engineering and chemical information available at all times to help answer your questions.

Account Set-Up and Qualifications

To open an account, please complete the enclosed information sheet and return it to us via mail or fax. Minimum opening order is \$1,500.00. There is a \$50.00 minimum on all orders. In order to qualify for the dealer discount, 12 items, mix and match must be ordered. Annual minimum of \$6,000.00 is required to maintain dealer status.

As a worldwide manufacturer of quality materials, we promise our service will be hard to beat. We look forward to working with you.

Sincerely,

Ms. Ricky Hochhauser, Pres.
